

## Create Weebly Pages

In Weebly create 3 separate pages. They should not be linked together with any form of navigation.

- Main page will contain the web form to collect the code and email address
- Success page will say thank you and your report is on the way
- Error page will inform visitor that the code provided or email address is not valid. It should give a link back to the main page so they can try again.

## Create Submit Form in Weebly

The custom HTML must be used to create the submission form.

- In the Weebly page editor, drag the Embed Code tool to the desired location of your page.
- Copy and paste the code below into the Custom HTML window.

NOTE: Be sure to replace the elements in red with your ontrack instance before pasting it to Weebly

## Custom HTML Code

When using the Custom HTML Code below, do not include any URL parameters discussed in the API section [here](#).

## Required Changes

- **ET** - replace with the target instance of ontrack
- **KEY** - replace with the Access key from the target instance of ontrack
  - Obtain the onTrackCRM access key from **My Preferences > Access Key**
- **EMAILID** - replace with the email id that was composed to send information
- **SUCCESS-PAGE** - replace with URL of the Success Page created in Weebly. **NOTE:** Make sure to include http:// in the URL.
- **ERROR-PAGE** - replace with URL of the Success Page created in Weebly. **NOTE:** Make sure to include http:// in the URL.
- **Market Report** - replace with the text you want to appear in the ontrack stream

## Optional Changes

- You can change the form instructions, field labels and submit button if desired. Option text is highlighted in yellow.

```
<form id="getcode" name="getcode" action="http://ET.ontrackcrm.com/cw/cma-api.php" method="post">
```

```
<input type="hidden" name="send" value="">  
<input type="hidden" name="key" value="KEY">
```

```

<input type="hidden" name="emailid" value="EMAILID">
<input type="hidden" name="redir_success" value="SUCCESS-PAGE">
<input type="hidden" name="redir_failed" value="ERROR-PAGE">
<input type="hidden" name="stream" value="Market Report">

```

```

<div class="wsite-form-container" style="margin-top:10px;">
<label class="wsite-form-label" for="input-code">Enter your Unique Code
below and we'll email it to you immediately.</label>
</div>

```

```

<div class="wsite-form-container" style="margin-top:10px;">
<label class="wsite-form-label" for="input-code">Code<span
class="form-required">*</span></label>
<input type="text" name="code" value="" class="wsite-form-input
wsite-input wsite-input-width-200px" />
</div>

```

```

<div class="wsite-form-container" style="margin-top:10px;">
<label class="wsite-form-label" for="input-email">Email<span
class="form-required">*</span></label>
<input type="text" name="email" value="" class="wsite-form-input
wsite-input wsite-input-width-200px" />
</div>

```

```

<div class="wsite-form-container" style="margin-top:10px;">
<input type="submit"
style='position:absolute;top:0;left:-9999px;width:1px;height:1px' /><a
class='wsite-button'
onclick="document.getElementById('getcode').submit()"><span
class='wsite-button-inner'>Submit</span></a>
</div>

```

```

</form>

```
